Tipton, IN
November 1, 2009

Package Right Corporation of Tipton, IN has purchased Rolco Games of Kasota, Minnesota. Rolco Games is the leading domestic supplier of plastic parts for U.S. game manufacturers.

Rolco Games, Inc., a division of Package Right Corporation, will continue to distribute board game parts such as pawns, spinners, game stands, and many other injection molded plastic pieces.

According to John T Smith, President of Package Right, "This is a strategic purchase for our company. All of us in this industry compete with offshore sources. Therefore, we want to ensure a continuing domestic supply of these types of parts for our customers and for other U.S. game manufacturers."

Rolco, Inc., the parent company of Rolco Games, will now be able to concentrate on its strategic focus of multishot technology. With the acquisition of Rolco Games, Package Right Corporation will be able to offer more products and services to the toy and game industry, including the testing and documentation required by the CPSIA. Smith said that the new regulations were a key part of Rolco, Inc's decision to get out of the game business.

Smith continued: "The Consumer Product Safety Improvement Act has placed some extreme burdens on companies who sell toy related products. At Package Right we deal with these regulations everyday – so it isn't too much of a stretch for us to handle the additional testing and paperwork that will come with Rolco Games."

For 30 years Rolco has been making parts that go into games. "Vern and Helen Olson and current President Brian Olson have been great suppliers to Package Right for the life of our company. We are honored to be able to continue this part of their legacy and we will make certain that we serve Rolco Games' customers with the same dedication and attention to detail that made us loyal to the Olsons," Smith said.

Package Right Corporation is the leading private-label manufacturer of jigsaw puzzles and board games in the United States. Founded in 1991, Package Right moved to Tipton in 1997. The company employs approximately 150 people and makes products for over 50 different brand names.
